Professional Summary

Professional with 10+ years in wholesale retail and distribution and management experience since 2020, as Pricing Coordinator and then Pricing Manager and Supply Manager, holding both manager roles concurrently for 2 years, in a group with over R$ 1 billion in revenue and 20,000+ active SKUs. Led teams of up to 9, working on margin targets, store openings and presentations to the Board of Directors. Results: +1.2 p.p. in group gross margin, 50% reduction in group sales stockouts (15 p.p. drop) and 90%+ reduction in operational pricing time. Data-driven decisions with Power BI, SQL and Python. Production Engineer, Master's in Applied Systems in Engineering and Management (Operations Research) and MBA in Finance and Controllership.

Professional Experience

Pricing Manager

Barcelos | Wholesale Retail and Distribution | Campos dos Goytacazes, RJ | Jan 2024 – Oct 2026

- Led a team of 9 (5 price researchers, 3 analysts and 1 assistant), developing people and managing daily routines.
- Managed margins across 25 stores in different sales formats.
- Set margin targets with the Commercial team for 4 channels (Wholesale, Cash-and-Carry, Retail and Premium Retail) and the Telesales, E-commerce and iFood segments.
- Designed pricing clusters, competitiveness strategies and a progressive volume-based discount policy for Wholesale (pallets and pallet layers).
- Implemented semi-automated base and promotional pricing across channels and configured the TOTVS Consinco ERP (prices, margin targets and rules for sending data to stores).
- Developed and implemented a project to control products close to expiration.
- **Results:** +1.2 p.p. in group gross margin; +4.1% in competitiveness (basket value); 90%+ reduction in operational pricing time; standardized commercial policy and margins across channels.

Supply Manager

Barcelos | Wholesale Retail and Distribution | Campos dos Goytacazes, RJ | Apr 2024 – Apr 2026 (concurrent with Pricing Manager role)

- Led a team of 5, organized by product category.
- Created the Sales Stockout dashboard and a KPI matrix by supplier, sales, purchasing and logistics; consolidated operational dashboards, eliminating redundancies.
- Built a store imbalance dashboard that enabled the transfer of surplus stock equal to 1% of the mix (~15,000 SKUs).
- Planned and executed the supply strategy for the opening of 3 new stores, based on store size and ABC analysis.
- Implemented early replenishment triggers for sales peaks and a purchase-batch prioritization methodology (ABC analysis, stockouts and promotions), with an SLA for canceling pending orders.
- Created the Ideal Stock concept, aligning in-store display with inventory turnover targets.
- **Results:** 50% reduction in group sales stockouts (15 p.p. drop); 9.6% reduction in store inventory; +16.7% in team productivity; stockouts held at ~10% (within target) during the opening of 3 stores; logistics stockouts down from ~3% to ~1% by balancing distribution centers; 33% reduction in operational time through batch automation, reallocating 1 team member.

Pricing Coordinator

Barcelos | Wholesale Retail and Distribution | Campos dos Goytacazes, RJ | Nov 2020 – Jan 2024

- Created and implemented the group's Pricing department.
- Led a team of 7 (5 price researchers and 2 pricing analysts).
- Led management meetings and executive presentations to the Board of Directors, aligning financial targets, margins and pricing strategy.
- Structured the market intelligence and price survey process, tracking elasticity and competitors by channel to define pricing strategy.
- Standardized the group's commercial KPIs after an organizational restructuring.

Controllership Analyst

Barcelos | Wholesale Retail and Distribution | Campos dos Goytacazes, RJ | Oct 2018 – Nov 2020

- Built the group's 2020 sales budget in Excel (VBA and pivot tables), down to SKU level, with macroeconomic indicators and simulation of ~15 branches across openings and closures.

- Took part in launching 4 new channels (Cash-and-Carry, Premium Retail, E-commerce and Telesales), with feasibility and impact simulations.
- Built and presented the monthly sales report to the Board of Directors and partners, covering results, margins and budget variances.
- Managed purchase budgets (Open to Buy) and audited trade fund contracts (sell-in/sell-out) on cash and accrual bases.
- Served as Key User in the migration from TOTVS Gemco to TOTVS Consinco ERP (Management, Purchasing and Pricing modules).
- **Results:** 80%+ reduction (R$ 120K) in inventory tied up in product exchanges; stockouts cut from 50% to 20% during the opening of 2 stores; reorganized distribution of C-class inventory (~5% of stock), improving turnover and Average Days of Sales (DVM).

Higher Education and Technical Instructor

Universidade Candido Mendes – Campos | Campos dos Goytacazes, RJ | Mar 2019 – Present

- In-person and online teaching in Engineering (Civil, Mechanical and Production), Business Administration and Accounting.
- Current courses: Business Intelligence (Power BI, Python and SQL), Materials Management, Project Management, Decision-Making Methods, Computer Simulation, Production Management and Quality Tools.

Business Analyst and Consultant

Olyver Consultoria Empresarial | Campos dos Goytacazes, RJ | Jul 2015 – Dec 2016

- Organizational restructuring for 3 retail and distribution clients: process mapping, purchasing routines, KPIs, budgets and income statement tracking.
- Delivered administrative, management and sales training to cross-functional teams.
- **Results:** 50%+ reduction in goods handling time (stock to point of sale) through layout redesign; working capital optimization using ABC analysis for purchasing.
