Sérgio Salles

Production Engineer | Process Improvement and Quality | KPIs and Team Leadership

Campos dos Goytacazes, RJ, Brazil | Open to remote work | safsalles@hotmail.com | linkedin.com/in/safsalles | github.com/safsalles | lattes.cnpq.br/1931669740915241

Professional Summary

Production Engineer with 10+ years in wholesale retail and distribution, working on process improvement, KPIs and team leadership in a group with over R$ 1 billion in revenue and 20,000+ active SKUs. Management experience since 2020, leading teams of up to 9. Results: 50%+ reduction in goods handling time (stock to point of sale) through layout redesign, 90%+ reduction in operational pricing time and 50% reduction in group sales stockouts (15 p.p. drop). In consulting, mapped and restructured processes for 3 retail and distribution clients. University instructor of Quality Tools, Production Management and Computer Simulation, supervised 12 theses and authored research on BPMN, statistical process control, facility layout and service quality. Tools: Power BI, SQL and Python. Master's in Applied Systems in Engineering and Management (Operations Research) and MBA in Finance and Controllership.

Professional Experience

Pricing Manager

Barcelos | Wholesale Retail and Distribution | Campos dos Goytacazes, RJ | Jan 2024 – Oct 2026

- Led a team of 9 (5 price researchers, 3 analysts and 1 assistant), developing people and managing daily routines.
- Implemented semi-automated base and promotional pricing across channels and configured the TOTVS Consinco ERP (prices, margin targets and rules for sending data to stores).
- Automated the collection, processing and visualization of competitor price surveys, including external data (Infoprice), using Python, SQL and Power BI.
- Developed and implemented a project to control products close to expiration.
- **Results:** +1.2 p.p. in group gross margin; 90%+ reduction in operational pricing time; standardized commercial policy and margins across channels.

Supply Manager

Barcelos | Wholesale Retail and Distribution | Campos dos Goytacazes, RJ | Apr 2024 – Apr 2026 (concurrent with Pricing Manager role)

- Led a team of 5, organized by product category.
- Created the Sales Stockout dashboard and a KPI matrix by supplier, sales, purchasing and logistics; consolidated operational dashboards, eliminating redundancies.
- Implemented early replenishment triggers for sales peaks and a purchase-batch prioritization methodology (ABC analysis, stockouts and promotions), with an SLA for canceling pending orders.
- Created the Ideal Stock concept, aligning in-store display with inventory turnover targets.
- Planned and executed the supply strategy for the opening of 3 new stores, based on store size and ABC analysis.
- **Results:** 50% reduction in group sales stockouts (15 p.p. drop); 9.6% reduction in store inventory; +16.7% in team productivity; logistics stockouts down from ~3% to ~1% by balancing distribution centers; 33% reduction in operational time through batch automation, reallocating 1 team member.

Pricing Coordinator

Barcelos | Wholesale Retail and Distribution | Campos dos Goytacazes, RJ | Nov 2020 – Jan 2024

- Created and implemented the group's Pricing department.
- Led a team of 7 (5 price researchers and 2 pricing analysts).
- Structured the market intelligence and price survey process, tracking elasticity and competitors by channel to define pricing strategy.
- Standardized the group's commercial KPIs after an organizational restructuring.

Controllership Analyst

Barcelos | Wholesale Retail and Distribution | Campos dos Goytacazes, RJ | Oct 2018 – Nov 2020

- Served as Key User in the migration from TOTVS Gemco to TOTVS Consinco ERP (Management, Purchasing and Pricing modules).
- **Results:** 80%+ reduction (R$ 120K) in inventory tied up in product exchanges.

Higher Education and Technical Instructor

Universidade Candido Mendes – Campos | Campos dos Goytacazes, RJ | Mar 2019 – Present

- Current courses: Business Intelligence (Power BI, Python and SQL), Materials Management, Project Management, Decision-Making Methods, Computer Simulation, Production Management and Quality Tools.

- Advised 12 undergraduate theses on solving business problems with Applied Mathematics, Process Management and Quality.

Master's Research and Teaching Fellow

IFF – Instituto Federal Fluminense | Campos dos Goytacazes, RJ | Dec 2017 – Jul 2018

- Taught and conducted research at undergraduate and master's levels; speaker and reviewer at regional, national and international conferences.

Business Analyst and Consultant

Olyver Consultoria Empresarial | Campos dos Goytacazes, RJ | Jul 2015 – Dec 2016

- Organizational restructuring for 3 retail and distribution clients: process mapping, purchasing routines, KPIs, budgets and income statement tracking.
- Mapped current-state (AS IS) processes in Bizagi, proposed improvements using quality tools and designed the future state (TO BE), validated with stakeholders.
- **Results:** 50%+ reduction in goods handling time (stock to point of sale) through layout redesign; working capital optimization using ABC analysis for purchasing.

Skills

Process & Quality: process mapping and improvement (AS IS and TO BE), BPMN (Bizagi), quality tools, statistical process control, methods engineering, facility layout, production management, service quality (SERVQUAL), Data Envelopment Analysis (DEA), computer simulation, Operations Research

Management & Leadership: team leadership, people development, project management, executive presentations to the Board, goal and KPI setting, budgeting, process management, ERP migration

Supply Chain: replenishment, inventory management, stockouts, Open to Buy, redistribution between distribution centers, store openings

Data & Systems: Power BI, SQL, Python, advanced Excel, Business Intelligence (BI), dashboards, TOTVS Consinco, TOTVS Gemco
